

# TEST Event Checklist

By ELX987 / Lordgarrett99

# Introduction

Welcome Fellow TEST Member, to your checklist that should be ideal for any Event situation our group may encounter, scheduled or sudden.

In this list we will have in game, out of game, and real life components that you should check before every event to ensure the best event experience every time.

First we will go over pre event steps, then just before event steps, and finally during/post event steps.

**DISCLAIMER:**  
**THIS GUIDE IS SUBJECT TO CHANGE**  
**AND IS NOT ACCOUNTING FOR EVERY**  
**POSSIBLE SCENARIO, USE COMMON**  
**SENSE :)**

**-Is the ship selected for the event purchased(in game or pledge) and available to fly?**

-Is the ship selected for the event fully kitted out to your needed specifications (weapons, missiles, components, cosmetics[?])

-Is the ship selected for the event stationed in the storage location required/preferred for the event?

-Once the ship is pulled from hangar, are all ammo, fuel, repairs, and additional equipment stocking taken care of?

-Once you are in the seat, before takeoff, are all ship settings (power triangle, targeting settings, modes etc..) in the way you wish them to be?

CAPACITY 800K SCU 5 %

## In Game Part 2. Person(pre)

-Have you set the correct spawn/medbay location for the event?

-Is all gear needed for the event, including backups of gear and consumables, stored in your staging spawn/medbay location?

-Did you go over, account for, and purchase missing and or extra pieces of gear and enough consumables for the event?

-When your gear is equipped, did you equip the appropriate amount and not too much or too little?

-Before walking to your ship or crew, did you make sure your gear is setup correctly with attachments and appropriate armor style?

WORK IN PROGRESS

# Installation and virtual environment(pre)

The day before the event, did you sort out these with your game/OS:

- Installation of all files correctly.

- Driver updates, OS updates, any form of updates completed.

- Verification of game files, double checking of user folder, or other preventative measures against common issues completed.

- Network speed, ping and reliability have been double checked to the maximum to avoid connection issues.

- Login to the verse has been checked and good to go.

- Necessary assistance applications (voice attack or joystick softwares), discord, and all other needed apps are open and setup correctly. As well as unnecessary apps/processes closed.

## In Game Event Start (Just before/during)

-Just before you tab into the game, can you hear people? Are all user volumes appropriate for your ears? Did you make sure important individuals (event lead, your direct team mates, etc) are unmuted, clear and understandable?

-Did you join the event leads party in a timely manner and made sure you loaded in game when they pressed the button to join server?

-Are you spawned in the correct location, if not did you ask for a ride/time to arrive on site?

-Are you strapped in for whatever comes your way?

# Event Completion/End(post)

-Did you make sure you thanked your event lead, left honest feedback and reflected on your actions during the event?

-Did you account for any prizes, awards, stakes or earnings acquired during or after the event?

-Have you had a good time?

# Conclusion

I hope you guys appreciated my guide on preparing for events in the best way possible, it was a pleasure showing you guys this and i hope to see you all soon!

TEST SQUAD, BEST SQUAD! o7
